

ECO friendly fun for all

LET'S GO GREEN

Work together to explore how to lower your carbon footprint

With the ever growing environmental issues we face from day to day, Let's Go Green is designed to inform and educate team members on the possible ways of lowering a company's carbon footprint.

As we go about our busy lives we don't always stop to think that each action within our home has an impact on the environment and so let's explore how sustainability applies to us all.

For indoors or out, this event is a real hands on activity with something for everyone to take part in.

'Let's go green' challenges

The teams must compete against each other to complete a number of green themed activities in the time allowed including:

-  Build a wind powered car
-  Create a water filtration system
-  Can fruit really power a light bulb?
-  Complete a solar energy puzzle
-  Design a water powered rocket

Included:

- All activities and equipment required
- Professional lively host
- Experienced event team
- Medal Ceremony
- Public Liability Insurance
- Full Risk Assessments
